The SusQI Academy

Integrating sustainability into Quality Improvement to create a more ethical and sustainable healthcare system

The Sustainability in QI (SusQI) Academy supports organisations to integrate environmental and social sustainability into existing QI education and practice, offering a practical way for all healthcare staff to contribute to building a more sustainable healthcare system, while improving care for patients. Designed for both healthcare delivery organisations and educational institutions, **the Academy is a bespoke package, created in collaboration with your organisation to achieve the following:**

- Integrate sustainability into existing QI teaching programmes and frameworks
- Develop capability to assess environmental and social impacts of QI
- Align strategy and foster connections between clinical, sustainability, and QI teams
- Increase motivation to engage in Quality Improvement

Who Can Apply?

Membership is available to all those working within health professional education, quality improvement, service transformation, sustainability and health service delivery

Why integrate sustainability into QI teaching and practice

"SusQI engages and motivates learners to contribute to the creation of a sustainable healthcare system and is time well spent."

Academy membership benefits

CSH Courses

Access to CSH technical workshops (SusQI, Teaching SusQI, Carbon footprinting)

Quarterly Forums

Online forum led by CSH experts. Share current learning, challenges, network with peers

Tailored Mentoring Hours*

A CSH lead helps assess your organisational needs, define your goals and provides tailored support

SusQI Academy Network

An Academy members only online network space for resource and information sharing

Exclusive Resources

Access to a members only area with exclusive SusQI resources

Recognition as an Aspiring Beacon Site

- Appear on the CSH map
- Use the Beacon site logo for your materials
- Receive a quarterly newsletter
- Share work at a national level inc. CSH's annual SusQI showcase

*Examples of how tailored mentoring hours can be utilised:

(Mentoring hours may be shared with QI Leads/Educators across your department)

- Educational and QI content review and advice on how and where to integrate sustainability into existing curricula and QI frameworks
- Co-delivery of online Sustainability in QI teaching sessions
- Mentoring for leads to support sustainability projects to develop local case studies
- Attendance at senior leadership meetings for strategic input

How you're supported

"We've been extremely well supported by the SusQI team at the Centre for Sustainable Healthcare, the approach has been very flexible and how we got there was up to us...having the Academy network to have conversations with other organisations also on the same journey proved extremely useful."
